Item Reference: SA1162925

Date of manufacture: 1950

Description

Gents Omega Seamaster bumper automatic wrist watch, 1950. The watch has a 17-jewel calibre 351 bumper automatic movement. Early automatic movements such as this one relied on the rotor 'bumping' backwards and forwards between two springs to maintain the power within the movement. Later automatic watches have the fully rotational rotor. The movement is fully signed and it has the serial number 12,717,894 which dates it back to 1950. The inside of the screw-on case back has the Omega logo together with the case reference 2577-8 which is correct for the calibre 351 movement. The watch measures 34mm diameter excluding the signed Omega winding crown and the lugs. The case is stainless steel and it is in lovely condition. The lens has light marking but is very acceptable (some white reflection showing in the photos). The signed dial is in its original finish with original hands and centre seconds hand. There is some age related darkening and light freckling, giving a nice even tropical finish. A new leather strap has been fitted. The watch comes in a new presentation box.
