Description

Antique Omega gun metal pocket watch, 1912. The watch has a stem-winding movement which is working nicely. The gilt movement is signed with the Omega name, and it has the serial number 4,330,976 which dates it back to 1912. The movement is protected by an inner hinged cover, there is a small patch of scratching where this inner cover has been opened in the past. The watch measures 47mm diameter excluding the winding stem and the loop. The case has a gun metal finish and it is in good condition. The inside of the case back has the early Omega logo. The acrylic lens is in good condition. The signed dial has blued steel hands, a subsidiary seconds dial and outer minute markers. There are a few hairlines to the dial. The watch comes in a new presentation box.
