Description

This is a fabulous example of a vintage mens watch made by the premium Swiss make Omega. This is the Omega Seamaster Deville with fully automatic 24 jewel calibre 565 movement with quick set date from 1966 Model reference number 166.020 Everything about this watch is original, the dial has not been restored or retouched in any way and is quite superb. It has the Omega logo on the crown and a genuine Omega buckle. The Seamaster logo on the back of the case is bright and crisp. It is fully marked Omega on the dial, movement and case as you would expect. The watch has the rare starburst textured dial that shimmers as it catches the light with luminous hour markers and luminous hands. The case has been professionally cleaned and polished so it is absolutely pristine. The watch case measures 35mm in diameter not including the crown. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whispers class. Overall this watch is in outstanding near mint condition and highly sought after by Omega collectors, the best example we have seen for a long time. We can fit almost any colour or style of strap you...
