Description

A classic example of these ever popular wall clocks. The 8 day movement strikes the Westminster-Chime on the quarters and the hours. It has just been fully overhauled by our 9th generation horologist and carries our usual full parts and labour 12mths guarantee. Importantly, it strikes on steel rods, giving a very crisp, clear and resonating tone. It is fitted with a STRIKE/SILENT facility and most unusually both the hours and quarters can be individually selected. It has a silvered dial with black Roman numerals. The golden oak case is beautifully polished and in pristine condition. It has a fully opening front door with astragal glazed, bevelled glass to the lower half. As fine an example of this type of clock that one could wish to find.
