## Description

This is a fabulous 18th century Chest of drawers. Made from walnut with and elm top. The colour is delicious and has such a wonderful warmth to it. The patina all over is superb and the quality is very impressive. The base being walnut has great figuring and the design with reeded sides and carved feet make this extremely elegant. There are also panels of elm on the front and the sides which is a lovely touch. Deep elm lined drawers and heavy brass handles reinforce the quality of the piece. The top is elm and the patina really sets the piece apart from others. No serious faults and the drawers run well. Height 100cm Width 132.5cm Depth 61cm Price includes UK mainland delivery
