Description

A great old Heriz carpet with rich colours and a complex design. The central medallion is dominated by the fresh red with details picked out in inky dark blues, sublime greens and yellows. Even the border, so dark against the field is a riot of flowers and leaves once again shining with fresh colour in the details. These carpets are also incredibly tough and of very good quality wool. I could eulogise for much longer about this piece's merits but I think it probably speaks for itself. It is in good condition with just a little loss to the ends. It has been professionally cleaned and is ready to use.
