Depth = 16 cm (6.3")

Description

This striking pair of antique carriage lamps features handsome pierced canopies with tented tops, each crowned with a decorative finial. The light boxes are glazed on three sides, with a particularly stylish concave, lipped front window that adds both character and charm. The back plate opens allowing easy access to the light. Each lamp is finished with a tapered, cylindrical brass mounting stem. They have been professionally drilled and wired with an electric faux candle, complete with cable and plug, and have been PAT tested for safety. If desired, a bulb holder can be easily installed to accommodate a bulb of your choice, or the lamps can be used with real candles for a more traditional effect. These are fine examples of period lighting that can be used indoors or outdoors, offering a touch of timeless style to any setting.
