Depth = 48 cm (18.9")

Description

Pair of Antique Late Victorian Walnut Bedside Chests. Pretty yet functional pieces. Presented here is a magnificent and rare pair of late Victorian walnut bedside chests, a true testament to the fine craftsmanship of the era. Each cabinet features 3 beautifully crafted descending drawers complete with scratch reeded drawer fronts. The cabinets are complemented by having matching front vertical rails, which creates a cohesive and elegant design with a texture. The drawers are meticulously joined with fine hand-cut dovetails and operate smoothly with little to no drawer wear, each drawer is also remarkably clean inside. Each drawer is adorned with original brass pierced plate dropper handles, which have been highly polished, really showing off their lovely intricate design whilst contrasting with the wood. Having been thoroughly checked over and fully restored in our workshop, these cabinets have been professionally stripped and re-polished with a traditional French polish maintaining some of their original patina. This process has brought out the rich, warm tones and natural lustre of the walnut grain, ensuring they are not only stunning but also completely home-ready. ...
