Sold**Item Reference: SA1166072****Date of manufacture: 1950**

Dimensions

Height = 30 cm (11.8")

Width = 25 cm (9.8")

Depth = 5 cm (2.0")

Description

A truly lovely vintage diamond engagement ring. The transitional cut diamond - graded by De Beers as G colour, SI2 clarity - is impressively white, bright and lively. The stone is secured by six split claws in a platinum collet. Slim, spear-shaped shoulders are set with six (three each side) eight-cut diamonds, leading to a slender platinum shank. Although De Beers have described the cut as Round Brilliant, the diamond has many characteristics of an Old European Cut - slightly smaller table, cut culet, burnished girdle - making this a transitional cut (a very rare cut that bridged old European cut and round brilliant) rather than a modern round brilliant. Accompanied by a De Beers Institute of Diamonds grading report. A unique number has been inscribed on this diamond providing utmost security. Cut: Transitional cut in the centre and eight-cuts in the shoulders. Colour: G (G to H in the shoulders). Clarity: SI2 (VS1 to VS2 in the shoulders). Carat: 0.63 (with a further 0.04 (approx.) in the shoulders). Circa: 1950. Size: J 1/2 (UK) or 5 (US). Free sizing available. Measurements: The diamond is 5.47 x 5.54mm. Sits 5.4mm from the finger. Weight: 2.34 grams. ...
