Item Reference: SA1168640

Date of manufacture: 19th Century

Description

French antique arch top gilded mirror – moulded frame with beaded decoration along the internal edge of the mount – original mercury plate glass and back boards. Wear and tear commensurate with age. The mercury plate presents some distressed areas (see images) which are reflected on the price, although they add even more character to the image reflected on the mirror. It really depends on the use of it. Please be sure to check all the images as these form part of the description.
