Description

Antique Omega pocket watch, 1916. The watch has a stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 5,584,125 which dates it back to 1916. The movement is protected by an inner hinged cover which has some fairly light surface scratching. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel. The front and sides are in good condition. There is some unevenness to the hinged case back. The glass lens is in good condition. The signed dial looks good to the naked eye. There are some faint hairlines if you look closely. One of the hands is a period replacement. The watch comes in a new presentation box.
