Item Reference: SA1170438

Date of manufacture: 19th Century

Description

Antique Lancet Top Single Fusee Mantel Clock By Wilkinson Leicester Working. This beautiful single fusee mantel clock has a wooden case with a lovely rich colour and grain. The top of the case is then a "lancet" shape. The body of the case is then square with two lovely ring handles to each side as well as lovely brass inlay to the front. There is then a further moulding leading to the base of the case which is finished by four brass feet. The dial is then painted and set out in black Roman numerals with a thin ring of dashes to the outside marking the minutes. The centre of the dial is then signed by the maker "Wilkinson Leicester". The dial is finally finished by two shaped hands as well as a domed, protective glass set into the brass bezel. The movement is then wound from the front and accessed from the back. It is a single fusee example of the upmost quality and comes complete with its regulating pendulum and winding key. It ticks away as it should and works perfectly. It measures approximately: - 14.25" / 36cm Tall. - 9" / 23cm Wide. - 5.5" / 14cm Deep.
