Description

A good example of an antique milking stool dating from the early to mid 19th Century. It most likely originates from Wales and has a thick elm top set on four simple legs. It is in very good condition for its age with a wonderful colour and patina. There are some minor signs of age and use and a couple of small knocks and marks but nothing detrimental and it is solid and sturdy. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £15
