

SA1170800

Antique silver Omega pocket watch

Price

Sold**Item Reference: SA1170800****Date of manufacture: 1910**

Description

Antique silver Omega pocket watch. The watch has a good quality stem-winding moving which is working nicely. The movement has screw-set jewels, swan neck regulator and Breguet hairspring. The regulator is signed Omega. The movement is protected by a inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are Continental 935 silver marks inside both of the hinged case backs. The back cover also has the Omega logo inside. The case is in good condition, just a little unevenness around the sides but nothing too serious at all. The glass lens has a small mark but not too noticeable to the naked eye. The dial has blued steel hands, a subsidiary seconds dial and outer minute markers. There are a couple of short hairlines but again, not too noticeable as they are faint. The watch comes in a new presentation box.
