Description

An elegant antique French brass railway portmanteau luggage rack dating from circa 1920s. Racks like these were used on French Pullman Railway trains not dissimilar to the Famous Orient-Express, which operated between Paris and Istanbul. With cast brackets supporting two upper bars for hats and a lower bar fitted with 5 sliding coat hooks. This is a really good example, with wonderful detailing to the brackets, the bars terminating in ornate brass acorn finials (which can unscrew). With fantastic untouched patina to the brass, this is a good quality heavy piece. Would look great in a hall or in a bathroom for towels or even in a kitchen for hanging pots and pans. Construction/Wood: Brass Condition Report: Wear and marks commensurate with age. Dimensions: Max Width Finial to Finial: 108cm Internal Width Between Brackets: 84cm Depth: 25cm Height: 26cm
