Description

Antique Omega pocket watch, c1912. The watch has a stem-winding movement, signed Omega, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel. It has one very minor "ding" to the back but otherwise is in lovely condition. The inside of the case back has the Omega logo. The glass lens is in lovely condition, just one small nibble underneath the edge of the lens. The signed dial is in lovely original condition. The watch comes in a new presentation box.
