Description

A very pretty pair of late 19th century brass and copper table lamps with beautiful etched cranberry glass shades. The pair are in perfect condition and have been rewired and PAT tested and fitted with in line rocker switches. The electrician has used modern braided cable in line with the period style of the lamps. The heavy bases are weighted so these whilst being quite tall are very stable and secure on any surface. A really pretty and useful pair in excellent order ready for use. The lamps measure 50 cms high, the bases are 10 cms in diameter with the shades being 16 in height by 12 cms in diameter. UK insured packing and delivery is £20
