German Silver Canteen of Cutlery for Twelve Persons - Antique Circa 1880 3138g.

Price

Sold**Item Reference: SA1173039****Date of manufacture: 19th Century**

Description

An exceptional, fine and impressive antique German 800 standard silver straight fiddle, thread & Rococo style flatware service for twelve persons. This extensive 12 person canteen of cutlery consists of 12 dinner knives and forks, 12 dessert spoons and forks, 12 butter knives, 12 teaspoons, two pickle forks two knives to compliment them and one large ladle. 800 German continental silver. Weight of solid silver items, spoons forks and ladle 2637g (without the knives and pickle forks with moulded weighted handles) they weigh separately 1984g so the total weight is 4621g approximately 3138g of 800 silver. All are marked for 800 silver. A beautiful antique set. And conservatively the total silver weight is worth £2900 at todays scrap price of at £0.95 per g. underestimating the total silver weight as it is approximate for the knives. So little is being paid for the age and the beauty of the set it is near scap value and new silver forks from legacy silver of similar design cost £374 each so antique sets are a wonderful investment. This is a beautiful set and to have the full number of knives and forks of this age a set is rare. The postage cost for this internationally...
