Item Reference: SA1173276

Date of manufacture: 19th Century

Dimensions

Height = 133 cm (52.4")

Width = 84 cm (33.1")

Description

Dimensions:W: 133cm (52.4")H: 84cm (33.1") Beautiful early 19th century French gilt mirror in excellent condition. It dates from the very early 1800s and has its original mercury glass with no scratches. Mercury glass was not made after 1840 and gives a sparkle like no other. It has its lovely real gilt (gold leaf) on gesso frame with stunning floral detail and no chips. It has all its original backboards. This mirror can be hung landscape as in the photos or portrait. Hung portrait it could not rest directly on a surface, it would need to be fixed to a wall because the central ornate gesso pieces protrude at either end.

Internal Ref: 11103
