Date of manufacture: 1890

Dimensions

Height = 38 cm (15.0")

Width = 18 cm (7.1")

Depth = 14 cm (5.5")

Description

A really outstanding example of these popular and elegant clocks. Made by VINCENTTI of PARIS, this one is gilded (gold plated) throughout. Regrettably our photos fail to demonstrate the true colour of this clock in all its splendour as we are very good at clocks and very bad at photography. In real life it is stunning!. The 8 day movement strikes on the half-hour and the hour with a beautiful mellow tone. It has just been fully serviced by our BHI registered staff and carries our usual 12mths full parts and labour guarantee. It has an arcaded, convex, enamelled dial with black Roman numerals and superb gilded hands. It is totally free from any chips, cracks or crazing. The case is gilded throughout and is beautifully formed with fretwork and fine detail. All glass is bevelled and in perfect condition. It has a mercury compensating pendulum. An absolute gem of a clock that is as clean and bright as a new pin. All cards accepted.
