Description

Antique silver English pocket watch, 1895. The watch has an English stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Chester 1895 with a maker's mark for the Coventry watch case maker Ebenezer White. The case is in lovely condition for such an early piece, a little pin prick ding to the back, and a small mark to the side but nothing serious at all. The glass lens is in good condition, just small marks but very acceptable. The dial is in very nice condition. Pin set hands. The watch comes in a new presentation box.
