Description

This is a truly exceptional 19th century Mahogany and Specimen marble side table. Gorgeous quality and originality. The base is very unusual with the amount of legs and shaped lower shelf. But the top is incredible. The mixture of marble and stone is wonderful with a bold design and rich colour palette. The condition is also very good with no chips or losses. The large centre stone is almost a quartzite with a depth to it which is fabulous. A real statement piece for any home. Height 70cm Diameter 61cm Price includes UK mainland delivery
