

SA1174763

Four 17th C Italian Walnut Carved Door Panels

Price

Sold**Item Reference: SA1174763****Date of manufacture: 17th Century**

Description

Set of four antique (17th Century) Italian carved panels. They are made of walnut and centered by a beautifully shaped carved motif. Originally they possibly were part of a large palazzo or church entrance main door. Good condition with wear consistent with age and use. Please see attached the image with the four panels and their dimensions above each one. We have tried to be as accurate as we could be and if you are interested in purchasing this set please do not hesitate to contact us for discuss further any detail.
