Dimensions

Height = 20 cm (7.9")

Width = 3.4 cm (1.3")

Depth = 1 cm (0.4")

Description

This is a remarkable unrestored and almost unworn example of the solid 9ct gold Omega 552 Automatic from 1963. The only work we have carried out is to service the movement and give the case a light polish with a soft cloth. The solid 9ct gold case is 34mm in diameter excluding the original crown, a full size gents. The case edges are sharp and crisp the watch looks like it was kept hidden away in a drawer and rarely worn. The movement is the Omega 552, Omegas greatest automatic winding movement. It has been freshly serviced and is currently running at plus 5 seconds per day, not bad for a 60 year old watch. The starburst art deco explorer dial is totally original it has had no restoration, the art deco numerals are solid gold with sharp facets that catch the light. The hands are matching gold. The hallmarks and movement serial number both indicate that this watch was made in 1963. Its the most original unrestored example you will ever see. We can fit almost any colour or style of strap, we keep most things in stock. A superb collectors piece.

Internal Ref: omega automatic
