Description

A fine pair of antique Edwardian sterling silver photograph frames which are oval shape in design with plain bodies, original velvet backing and each resting on an easel stand for support. These silver frames have been made to the highest standard, as one would expect from the Goldsmiths and Silversmiths Company, and the backing can be removed from the silver bodies, which is a sign of superior craftsmanship. Although the velvet backing of each frame has faded over the years, it is wonderful to know they remain in their original condition and that they haven't been renewed or replaced over time. Overall height: 16 cms (6.3") Overall width: 12.7 cms (5") Inner height: 12.7 cms (5") Inner width: 9.6 cms (3.8") Weight of silver (without the backing): 5.7 troy ounces (178 grams) They were hallmarked in London for 1901 by Goldsmiths & Silversmiths Co. Complimentary postage is included within the price of these photo frames. If you have any queries, please do not hesitate to contact us.
