Description

1930s Doxa pocket watch and chain. The watch has a Swiss stem-winding movement, signed Doxa, which is working nicely. The movement is protected by an inner hinged cover which has some surface scratching. The watch measures 51mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition with just light surface marks. The glass lens is in lovely condition. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a single chain, 31cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
