Price

Sold

Item Reference: SA1175918

Date of manufacture: 1890

Dimensions

Height = 36 cm (14.2")

Width = 20 cm (7.9")

Depth = 20 cm (7.9")

Description

This is a good late Victorian taxidermy of a green woodpecker (*Picus viridis*) circa 1890. The full mount adult male is posed clinging to a short tree stump with a cream spot butterfly and garden tiger moth sat above. This is displayed beneath a circular glass dome on mahogany base with stylish raised metal gallery that encircles the dome. The dome measures 36 cms in height with the base being 20 cms in diameter. UK delivery can be arranged with our trusted furniture courier due to the fragility of the piece and costs £55 plus vat to most destinations.
