Description

Gents Omega automatic wrist watch, 1947. The watch has a 17-jewel bumper automatic movement, calibre 28.10RA, which is working nicely. The movement is fully signed and it has the serial number 11,307,302 which dates it back to 1947. The watch measures 32mm diameter excluding the signed Omega winding crown and the lugs. The case is 14k gold filled and it is in good condition. The inside of the case back has the Omega triangle and the reference F6212. The lens looks good to the naked eye, just a couple of small marks if viewed very closely. The signed dial is in its original finish with original dauphine shaped hands. A new leather strap has been fitted. The watch comes in a new presentation box.
