

SA1176277

Gents large antique trench watch

Price

Sold**Item Reference: SA1176277****Date of manufacture: 1920**

Description

Gents large antique trench watch. The watch has a Swiss hand-winding movement which is working nicely. The watch is a good size at 38mm diameter excluding the winding crown and the fixed wire lugs. The case is steel and good condition for a piece of its age, just some surface marking to the back, but nothing too serious. The glass lens has light marking but is very acceptable. The dial has blued steel hands, a red number 12 and outer minute track. There are two patches of damage to the edge of the dial, mostly covered by the screw-on bezel. A new leather strap has been fitted. The watch comes in a new presentation box.
