## Description

Period Regency credenza or side cabinet of breakfront form. The three front doors are inset with decorative brass grilles over pleated cream silk panels in a diamond lattice design – a classic Regency feature. The vertical stiles are embellished with gilded Egyptian-style mask mounts at the top and carved paw feet at the base, lending the piece a distinctive Greco-Egyptian revival character. The breakfront profile creates a graceful silhouette, with the central section projecting forward and flanked by two recessed side sections. Inside, the cabinet offers useful storage with shelving, making it ideal for a dining room, drawing room, or library. Bought from a private house sale in London's Belsize Park. Offered in great shape ready for home use right away. We ship to every corner of the planet – please get in touch for a shipping quote. We are open by appointment – please get in touch.
