Description

Victorian Mahogany Tilt-Top Table. A fully restored and beautifully carved tilt top oval table. We bring to you this fine example of a timeless early Victorian solid Mahogany tilt top oval table believed to be made between C1850. This lovely table has been fully restored in our workshop so is in a gleaming condition having been traditionally French Polished throughout. The table has an idyllic warm colour and sympathetically still retains much of its patina, charm and character. This tilt top table is made from all solid Mahogany featuring a particularly lovely base incorporating a large turned pillar which goes to its 4 beautifully shaped and carved scroll ended legs which stand on its original castors on white porcelain wheels typical of the early Victorian age. This table has a small overall form yet is versatile from having an oval-shaped top managing to comfortably seat 4 people and be used as a dining room or breakfast table. Already not taking up too much room because of this oval shape, the top tilts up-right for storage and is removable via 2 wing bolts with polished brass heads. Unusually and as a sign of quality this tilt top table has no movement or play in...
