

SA117783

Antique Horn & Sterling Silver Handled Magnifying Glass - Victorian

Price

Sold**Item Reference: SA117783****Date of manufacture: 1880**

Description

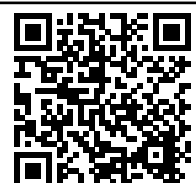

A very usable sized magnifying glass, measuring 7 1/2" in length with a glass diameter measuring 3", perfect for the desk-top but small enough to be portable. The antler horn handle is finished with a solid or sterling silver tip and ferrule both with a decorative repousse design, both hallmarked for Sheffield 1886, so Victorian in era. The silver also benefits from having the design registration diamond too (always a highly desirable feature). The nickel framed glass is of course new, making it very usable piece, without damage, clear and with a good magnification. A superb desk accessory in excellent condition.
