Description

1930s Cyma pocket watch and chain. The watch has a Swiss 7-jewel stem-winding movement, Cyma reference 781, which is working nicely. The watch measures 47mm diameter excluding the winding crown and the loop. The case is chromium plated. There is some wear and general surface marking to the back. The watch has a glass lens, it has a few little marks but is very acceptable. The dial is in its original finish with Breguet style numbers and hands. The watch comes with a single chain, 25cm long including the T-bar and the clasp. Also included is a reproduction of a Roman medal. The watch and chain come in a new presentation box.
