Description

An attractive antique armchair for reupholstery. We date this chair to the late 19th century. The chair sits on four castors with turned legs to the front and square section legs to the rear. The chair has an overall height of 96cm, an overall width of 62cm, an overall depth of 75cm, a backrest height of 63cm, a seat height of 40cm, a seat width of 51cm and a seat depth of 50cm. The chair frame is in a good solid condition with some marks commensurate with age and usage including some marks to the frame. There is significant wear to the upholstery as can be seen in the pictures. This remains a very stylish and elegant armchair. It is very comfortable and supportive to sit on and would provide an ideal reupholstery project for someone with the requisite skills.
