Description

This beautifully engineered till features an ornate nickel plated bronze casting with intricate detailing, finished in its original silvered tone. The register sits on a solid oak base and retains its hand-crank mechanism, glass display window, and hand-painted indicator signs showing pounds, shillings, and pence. Stamped with serial number 677285, this model reflects NCR's iconic design and precision engineering from the period when mechanical tills were both decorative and functional showpieces for shop counters.
