Width = 3.5 cm (1.4")

Depth = 1 cm (0.4")

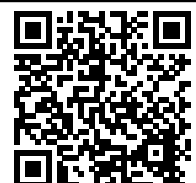

Description

This is a near mint example of the Solid 9ct gold Omega calibre 510 from 1959. The only work we have carried out is to service the movement and give the case a light polish. The solid 9ct gold case is 34mm in diameter excluding the original crown, a full size gents. The case edges are sharp and crisp the watch looks like it was rarely worn. The movement is Omegas manual winding calibre 510 this is quite rare and was one of Omegas highest grade movements of this period. It has been freshly serviced and is currently running at plus 10 seconds per day, not bad for a 65 year old watch. The dial is totally original and perfect it has had no restoration whatsoever. The hands are matching gold. It is a superb original and unrestored example. As you would expect the watch is fully marked on the dial, movement and case with London hallmarks for 1959. Like all of our watches it comes with a 12 month warranty. A nice collectors example. We offer a highly personalised and bespoke service. If you would like to buy or reserve this watch please telephone us on 01726 813155 email us foweyshop@gmail.com Mobile text 07878258979 We can then discuss strap options, d...
