Date of manufacture: 1880

Dimensions

Height = 19 cm (7.5")

Width = 10 cm (3.9")

Depth = 9 cm (3.5")

Description

Hi I have for sale a French striking and repeating carriage clock made in France around 1880;s and is simply stunning, one of the best I have ever seen and striking on a gong has been fully restored with new springs, all screws and gong re-blued in stunning condition, not signe,d but I think a Jacot? This is one large heavy clock built to top spec and a must for the best of collections a very rare case not often seen for sale, with the solid handle also. The Case The case is in solid shiny gilt and stands 19cm high x 10cm wide with a depth of 9cm it is in perfect condition with mint thick 3mm bevelled sides/front/ and top viewing glass. The case is very shiny and hard to photograph; they do not do the clock justice at all. The Dial The dial is in original condition with a Roman border against a gilt mask with a chased centre set off with fine Roman numerals, and the clock has very fine original black ornate hands. The Movement The movement is an eight-day time and strike which strikes the hours via a small sweet gong to the rear and also has the repeater button on top to repeat the last hour strike, the movement has been serviced and oiled so keeping a great time over...
