Description

This beautifully crafted metamorphic library chair is made from solid walnut, prized for its rich color and fine grain. Designed to combine elegance with utility, the piece transforms effortlessly from a traditional high-back chair into a sturdy three-step library ladder. In chair form, it showcases warm walnut surfaces with a well-aged patina, complemented by pierced decorative motifs and pyramid-shaped studs adorning the back rails. When converted, the chair folds forward to reveal three leather-inset steps, each with decorative tooling, supported by robust brass hinges and discreet metal braces.
