Date of manufacture: 1900

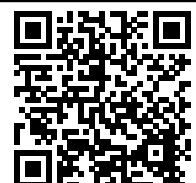

Description

Large antique pocket watch, telephone dial. The watch has a Swiss stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 66mm diameter so larger than a standard 50mm pocket watch. The case is nickel and it is in good condition, as is the glass lens. The telephone style dial has stunning blue enamel around each Roman numeral, original pin-set blued steel hands and outer minute markers. The dial is in beautiful condition. The watch comes in a new presentation box.
