## Description

18th Century Carved Walnut Wall Bracket A 18th-century wall-mounted bracket, hand-carved from walnut. The piece features a simple yet attractive carved motif, typical of Georgian or Queen Anne design. The walnut wood has developed a rich, warm patina, showing its age and character. This bracket is in good original condition, with only minor age-related marks. It measures approximately 47 x 10 x 20 cm (height) and was removed from a country manor house in Worcestershire, adding to its provenance. A solid example of period craftsmanship, it would suit traditional interiors or be a charming addition to an antique collection.
