Description

This exquisite 1.30ct natural emerald diamond ring is a stunning example of timeless elegance. The openwork gallery features tall, thin struts that gracefully meet at the edge of each diamond, crafted from high-quality white gold. At the centre, a vibrant natural emerald captures attention with its rich green hue and radiant sparkle. Surrounding the Octoagon cut emerald is a cluster of round brilliant cut and marquise cut diamonds, totalling an impressive 0.78ct. These diamonds enhance the overall design, adding balance and sophistication while creating a striking contrast with the emerald's colour. This ring would make a superb engagement ring or the perfect addition to any collection. STONES Centre Emerald 1.30ct approx Diamonds 0.78ct total approx.
