

SA1183298

Gents 1950s Helvetia automatic wrist watch

Price

Sold**Item Reference: SA1183298****Date of manufacture: 1950**

Description

Gents 1950s Helvetia automatic wrist watch. The watch has a 25 jewel automatic movement, a Helvetia 837, which is working nicely. As with many Helvetia watches, it is wound anti-clockwise to charge up the automatic movement. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in very nice condition. The screw-on case back states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in good condition. The signed dial is its original finish which has aged beautiful over the years, giving an even tropical patina. Original hands, centre seconds hand and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
