Description

A very handsome Set of Six Carved Oak Jacobean Style Dining Chairs A set of six high back dining chairs made in the Jacobean style in about 1860. The quality of these chairs is apparent by not only the sharp carving and beautiful colour and patina but the weight. Three of the seats show small rubbing on the corner (see photos) and this is usual for chairs of this age. The undersides are all in very good condition. For delivery please ask for a quote .
