Description

Silver Record half hunter pocket watch, 1922 The watch has a Swiss 17-jewel stem-winding movement by Record which is working nicely. The movement is protected by an inner hinged cover. The watch measures 52mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks for Birmingham 1922, with a case maker's mark for the Birmingham case maker Aaron Dennison. The front cover is in good condition, with dark blue enamel filled Roman numerals surrounding a central lens. There is some unevenness to the back of the watch although fairly gentle. The winding crown pushes in to open the front cover. The acrylic lens is in good condition, just light marking but nothing too noticeable to the naked eye. The signed dial is in good condition with original blued steel hands including the special half hunter hour hand so that the time can be read when the front cover is closed. The watch comes in a new presentation box.
