Item Reference: SA1184836

Date of manufacture: 1940

Description

UK POSTAGE ONLY FOR THIS ITEM Gents Omega bumper automatic wrist watch, 1944. The watch has a calibre 30.10 RA PC 17-jewel bumper automatic movement which is working nicely. The movement is fully signed and it has the serial number 10,232,608 which dates it back to 1944. The watch measures 35mm diameter excluding the winding crown and the lugs, this is the large version which is more sought after. The case is stainless steel and it is in good condition, just a few small marks but nothing too noticeable at all. The inside of the case back is signed with the Omega logo, together with the case reference 2371/2 which is correct for the calibre. The lens is in good condition (some natural light reflection showing in the photos). The signed dial is in its original finish, the black print has faded over the years. Feuille shaped hands. General light marking across the dial. A later leather strap has been fitted. The watch comes in a new presentation box.
