## Description

A rare Georgian unmarked silver filigree thimble, scent bottle, tape measure combination in original red Morocco leather case. The tape measure pulls out and winds back in. The blue scent bottle has its original stopper, but has had repair to the bottle - see photos. The thimble has the original owners initials on the cartouche. The red box is just lovely and very rare to find with the item. There is some red leather missing on one side but it still has the original silk lining and closes with a hook and eye. Circa 1800. L 5 cm
