Description

A fine and impressive antique 1.39 carat diamond and 18 carat yellow gold trilogy ring; part of our collection of antique gold rings. This fine and impressive gold three stone ring has been crafted in 18ct yellow gold. The subtly elevated setting displays an impressive central feature claw set 0.81ct Old European cut diamond. The feature diamond is flanked on either side with a claw set Old European cut diamond, totalling 0.58ct. The ring shoulders integrate with the setting and blend seamlessly with the plain ring shank at a groove cuff design. This antique gold ring is hallmarked to the interior of the shank with the maker's mark and 18ct gold mark (18CT). This antique trilogy ring is supplied with three IDGL diamond grading report certificates. Such examples with larger centre stones are becoming increasingly difficult to locate. The classic three-stone design, emblematic of past, present, and future, lends this ring quiet significance. This antique three stone diamond ring in gold is ideal for engagements, anniversaries or moments of devotion. The antique character and bright diamonds confer lasting distinction, worthy of milestone gifts or heirloom keeping. ...
