Description

These elegant vintage earrings feature Italian micromosaics formed of tiny tesserae (glass tiles) in flower bouquet designs set into a black enamelled ground. The frames surrounding the mosaic plaques are gold-tone metal while the ear wires are solid nine-carat gold. • Condition: Very good vintage/antique condition; there is a little wear to the enamel edges at the sides of the plaques and a little discolouration to the gold but neither is very noticeable to the naked eye. • Fixing: Nine-carat gold lever-back ear wires. • Hallmarks/Stamps: 9K on both wires. • Era: Mid-20th century, possibly antique with later wires. • Size: The plaques measure 2 x 2.2cm, 4cm total drop from the top of the ear wire. • Weight: 9.1g.
