Description

A beautiful high quality Ceylon (Sri Lanka) of possibly Indian antique solid silver dish / tray. It is marked with a makers mark and 100 percent signifying pure silver, it tests as such. I would date it to c1920. It has been superbly handmade and is in superb condition being free from dings splits holes and repairs. It measures approx. 8.25 inches (21.1cm) across by 5.25 inches (13cm) wide and weighs 212 grams. A very well made piece.
