Description

Omega pocket watch, 1935. The watch has a 15-jewel calibre 38.5 L.T1 stem-winding movement which is working nicely. The movement is signed with the Omega name, and it has the serial number 8,720,870 which dates it back to 1935. The movement is protected by an inner hinged cover. The watch measures 47.5mm diameter excluding the winding stem and the loop. The case is steel. There is some surface marking to the back but the overall condition is good. The glass lens has a few light marks but is very acceptable. The signed dial has a couple of hairlines towards the edge but you have to look closely to see them. The watch comes in a new presentation box.
